Re discussions w/ Ron Kwan re

Note to File Re PM 1268 3-4-92

- US amendment has been sent
- Australia (Mar 12) - Ravi's comments faxed
  Ron had already conferred w/ John re amendments
  was that we'd have to live with the interim
  response already filed
- EPO (Mar 29) Ravi is working on (Luc ref) will call
  Ron Asap
- Canada - sent prior art details to John
  - discussed vol. amn. w/ Ron - John had indicated
  verbally that any limitation to apparatus might transfer
  to process (& we made some lim. to solvents in US)
  - decided it would be better since (a) US approach
  not entirely clear in view of Newton & Nuven refs
  and (b) possibility of confusing the examiner on Nuven
  into the technicality re apparatus is avoided -
  claims in foreign NOT to amend now
  Ron has responded
  & need set of claims as filed in Canada
- Finland Ron is responding
  Mar 13
